INTER International Education & Trainings

Internships in Poland & Europe

Within the framework of Leonardo da Vinci –Mobility, INTER International Education & Trainings offers the complex preparation of foreign and domestic internships.

The activities range from projects preparation to all practical aspects of internship placements.

INTER International Education & Trainings

Practical aspects are:

- finding internship placements in different companies in Poland and Europe
- creating and implementing training program
- arranging for accommodation for the entire period of stay
- insurance and transport
- cultural activities
- linguistic preparation
- monitoring and mentoring system
- experimental evaluation tools
- career guidance
- evaluating and qualitative final reporting

INTER International Education & Trainings

Languages

- INTER offers high quality language courses run in different parts of Europe depending on language taught. The courses are in UK, Cyprus, Germany, Italy, Spain or Poland.
- Courses are run in small groups (4-6 students), what enables the teacher and student to establish and stay in close relation during the course and after it, as friends. The main aim is to discover and gain strong motivation in order to improve language competences.
- While having the classes emphasis is being put on developing communication abilities, as well as on key language competences, which are: reading, writing and comprehension.

INTER International Education & Trainings

Intercultural Workshops:

Our aim is to create and implement professional preparation in the field of:

- Intercultural Education
- Active Citizenship
- European Identity
- European Dimension in Education
- Culture and Stereotypes

INTER International Education & Trainings

Benefits

Main results of intercultural workshops are the following:

- preparing beneficiaries to live, study and work in a foreign country
- breaking cultural barriers
- meeting the rules of cultural diversity in Europe
- overcoming the filling of social exclusion
- meeting the stereotypes in Europe and ways of their overcoming
- building cultural relations between people from different EU countries

INTER International Education & Trainings

Teachers' Trainings are developing key competences in learning pathways focusing on :

- developing innovative training offers for teachers and trainers
- transferring knowledge, methods and good practices for teachers education
- improving validation of non-formal and informal learning in learning pathways for teachers and trainers
- developing social, civic, cultural and intercultural competences among teachers and trainers
- helping learners to develop transferable competences
- developing strategies in order to share knowledge and disseminate good practices on learning opportunities
- strengthening cooperation between teachers' and trainers' education providers and local/national authorities in the field of teachers' education

INTER International Education & Trainings

The ultimate mission of INTER International Education & Trainings is to facilitate and encourage people to participate actively in multicultural, multiethnic and multilingual environment through cooperation, promotion and information on European Dimension with the specific reference to contemporary reality of Poland, adjusted to the dynamics of the European Union, and focused on meeting the challenges of globalization in a climate of tolerance and respect for other cultures and religions.
